

An Environmental Affair

Volume 20, Issue 11

November 2000

The City of Los Angeles Environmental Affairs Department was established in 1990 to advise the city on environmental issues and provide a centralized source of environmental information. The Environmental Affairs Department seeks to protect and enhance the environmental quality of life for residents, workers and visitors in The City of Los Angeles.

Greening a Los Angeles Landmark: Watts Towers

In September, the Environmental Affairs Department (EAD) and the Los Angeles Conservation Corps (LACC) enhanced the park area adjacent LA's famous Watts Towers with more than 80 new trees. EAD coordinated with Community Redevelopment Agency (CRA) staff to ensure that the trees were planted in time for the 19th annual *Watts Towers Day of the Drum Festival* and 24th annual *Simon Rodia Watts Towers Jazz Festival*, both held early last month.

The trees were made available through funding from an Environmental Enhancement and Mitigation Program (EEMP) grant, awarded to EAD by the State Resources Agency, and funds from the Los Angeles Urban Resources Partnership (URP). LACC, contracted to implement the tree planting grant, provided the necessary labor. The timeline for planting was tight because this year's events were particularly important: the Towers were temporarily opened to the public for the first time in over six years—since they were damaged by the 1994 Northridge earthquake. Repair work on the Towers will not be completed until 2001, when they will be again opened to the public on a permanent basis.

Watts Towers

Park Adjacent Watts Towers
Photo from Los Angeles Conservation Corps

The Watts Towers have attracted people from all over the world, who have heard about the singular effort of former resident, Simon Rodia, the Italian laborer who created them in his yard over a period of three decades from the 1920s to 1954. The Towers are made of a steel core wrapped in wire mesh, covered with mortar and inlaid treasures including: colored glass, sea shells, colorful tiles, rocks, pieces of pottery and broken ceramic plates. They have formed the traditional focal point for the annual drum and jazz festivals, which have become well-known emblems of the City's distinct cultural identity.

For more information about Watts Towers, see: http://www.cityofla.org/CAD/community_art/wttstwr.htm and to learn more about other local cultural attractions, see the City's Cultural Affairs Department website: <http://www.cityofla.org/CAD/>.

An Environmental Affair is produced monthly by the EAD to inform residents about environmental issues and activities in Los Angeles. For questions, or to update or cancel your free subscription, call the Environmental Information Center Hotline at (213) 580-1052. TDD (213) 977-7062. You can also reach us by fax: (213) 580-1084, e-mail: info@ead.ci.la.ca.us, or visit our Web site at www.lacity.org/ead. As a covered entity under Title II of the Americans with Disabilities Act, the City of Los Angeles does not discriminate on the basis of disability and upon request, will provide reasonable accommodation to ensure equal access to its programs, services and activities.

PLEASE POST

Patricia Villaseñor
Editor

On the Biggest Shopping Day of the Year...

Consider Environmental Gifts:

1. Plants
2. Garden tools and accessories
3. Zoo membership or visit
4. Outdoor trip...hiking, camping, bird watching, star gazing, boating, picnicking...
5. Visit to a botanical garden
6. Visit to an aquarium
7. Contribute to an Environmental Organization.
8. A telescope!
9. Class tuition for flower arranging, growing, or painting, learning about herbs, design with nature, etc.
10. For really big spenders, maybe try an **eco-tour** to one of the world's most environmentally-precious areas.

Remember -
Buy Recycled!

Better to Buy Recycled

Continuing its commitment to increased citywide recycling, the Los Angeles City Council recently reaffirmed its pledge to buy recycled products through the Recycled Products Purchasing Program and has added remanufactured laser printer toner cartridges to its mandated list of "Buy Recycled 2000" products. The "2000" products are proven items that are commercially available and all City departments in need of them are requested to always buy the recycled-content alternatives.

Remanufactured laser toner cartridges have been on the purchasing list since 1997, but moved up to the "2000" list this year because: (1) their performance is equal to toner cartridges made with raw materials; (2) they are backed by a 100 percent quality guarantee and free cartridge collection; and (3) their cost is less than those on the market made with raw materials. It is estimated that the City will save approximately \$142,00 per year if the remanufactured cartridges are purchased.

CFAC Seeking Representatives

The Community Forest Advisory Committee (CFAC) has openings for enthusiastic volunteers interested in promoting the enhancement and expansion of Los Angeles' urban forest. CFAC members, one from each Council district and one at-large member, are nominated by the City Council members and appointed by the Mayor. The Committee is currently seeking representatives for Council Districts 4, 7, 8, 9, 10, and 12 as well as a representative for the Mayor. Alternates also are being sought for Council Districts 2, 3, 4, 5, 6, 7, 8, 9, 10, and 12 and for the Mayor. A background in arboriculture, urban forestry, landscape architecture or contracting, education/research, or geography/planning as well as those involved in neighborhood associations and community groups are desired, but any interested residents are encouraged to apply.

CFAC members act as advocates for the community forest by making policy recommendations about tree selection, planting and care; providing comments or advice to agencies when their projects, plans, or policies affect the welfare of the community forest; and facilitating communication among City departments, community groups, and concerned residents. Membership also is a great way to learn first-hand about tree issues affecting the City today, and to network with like-minded residents and City staff. Meetings are held on the first Tuesday of each month from 1:00 to 3:00 pm. Additional subcommittee and ad hoc committee meetings are scheduled as necessary.

CFAC was created in 1993 as an advisory body to the Board of Public Works, other City departments, City Council, and community groups on tree-related issues. Their vision statement calls for a healthy, safe and enduring Los Angeles community forest ecosystem for the enjoyment and well-being of all. If you are interested in serving as a CFAC representative, please call Angela Liu, Chairperson, at 310/827-7951.

Striving for a Mercury-Free Los Angeles

The Los Angeles City Council recently adopted a Resolution urging all retail establishments within the City to replace any and all products with mercury-free alternatives. The resolution recognizes the toxic nature of mercury and its compounds—known to adversely affect the nervous and reproductive systems of humans, with particular danger to pregnant women and children due to its damaging effects on the developing brain. Mercury vapor released into the atmosphere is readily absorbed by inhalation and passes through the bloodstream to the central nervous system and, when released into the environment, is transformed into methylmercury—a compound which moves up through the food chain in fish and wildlife.

Most human exposure to mercury occurs through consumption of fish. However consumer and medical products also pose threats—the latter accounting for 30 percent of the 158 tons of human-generated annual mercury emissions in the United States. Mercury-bearing products include: old alkaline batteries and some button batteries, fluorescent and high-intensity discharge lamps, thermostat gauges and switches, thermometers, amalgam dental fillings, chemistry sets, and some older toys and games. Fortunately, mercury-free alternatives—such as digital or alcohol thermometers—are becoming more readily available for these products.

The American Hospital Association entered into a Memorandum of Understanding with the U.S. EPA to virtually eliminate mercury waste by 2005, the American Public Health Association passed a resolution in 1999 urging community reduction efforts and for all health care facilities to eliminate mercury-containing waste from its incinerator feedstock. Also, the California Medical Association passed a resolution in 1995 leading toward the eventual elimination of all mercury-containing products. Numerous California hospitals—including UCLA Medical Center, Kaiser Permanente, and Catholic Healthcare West—already have committed to eliminating mercury from their facilities. New Hampshire and Minnesota, as well as the City and County of San Francisco, have adopted similar legislation. In their Resolution, the Los Angeles City Council urged Los Angeles County to take the same steps.

You can do your part by keeping batteries and other potential mercury-bearing products out of the trash. Many batteries will be labeled as “ZMA” or “zero-mercury added” for consumer safety.

Drop your household and/or car batteries at Los Angeles County's weekend household hazardous waste collection events: 1-888-CLEAN-LA or www.888cleanla.com.

Overnight Adventure: Catalina Above and Below

An overnight scientific observation and collection expedition to Catalina Island, sponsored by Cabrillo Marine Aquarium in San Pedro, will be conducted November 10-11, 2000. The Aquarium is a facility of the City of Los Angeles Department of Parks and Recreation. Participants will depart at 11 pm on the 93-foot fishing vessel, *First Sting*, from Los Angeles Harbor Sportsfishing Landing in Ports O'Call Village in San Pedro, and will return at approximately 6 pm the next evening.

Arriving at the island before dawn, Aquarium staff members will place various types of fish traps in selected locations. Squid lights then will be set up to illuminate the dark waters in an attempt to attract squid and a variety of other marine life to the surface for viewing. A night plankton dive by the aquarists will be conducted. At daybreak, scheduled events will include plankton gathering, on-deck observation of the microscopic catch, kelp sampling, and attempts to capture the primitive hagfish. Biologists will collect a myriad of marine life for topside hands-on examination. Passengers will go onshore at the Isthmus for a guided geology walk. A controlled shark baiting will be a highlight of the trip—to lure the predators to the water surface during an informative talk about sharks. The *First Sting* has a fully-equipped galley where food and beverages are sold. Passengers are advised to bring warm clothing and non-skid shoes. Trip cost is \$75 per person (\$65 Aquarium FRIENDS). For information and reservations, call Larry Fukuhara: (310) 548-7562, ext. 5011.

FUNDING OPPORTUNITIES

California State Parks Foundation Earth Day 2001 Restoration and Cleanup Grants Program

The Foundation's Earth Day 2001 Restoration and Cleanup is scheduled for Saturday, April 21 from approximately 9:00 am– 1:00 pm. Its mission is to accomplish environmental improvement projects at State Parks, community parks, and inner-city or under-served schools, by offering Californians the opportunity to volunteer on Earth Day and collectively make a difference in their shared environments. State parks, schools, and nonprofit organizations may apply for an Earth Day grant to support environmental restoration or cleanup projects to be conducted on April 21st. Grants up to \$2,000 will be awarded for projects that enhance public open spaces and that can be worked on collectively by community volunteers. The deadline is December 1, 2000. For more information, contact the Earth Day Grant Program: (415) 258-9975.

Environmental Enhancement and Mitigation (EEM) Program Grants—The program offers a total of \$10 million to local, State, and federal governmental agencies and nonprofit organizations for projects to mitigate environmental impacts caused by new or modified State transportation facilities and which fall under three categories: highway landscape and urban forestry, resource lands, and roadside recreational. Grants will be limited to \$250K per project. Applications for the 2001-02 grant cycle must be postmarked or received by Friday, November 17, 2000. For application materials, contact the Resources Agency, 1416 Ninth Street, Room 1311, Sacramento, CA 95814 or call: (916) 653-5656.

National Urban and Community Forestry Advisory Council 2001 Challenge Cost-Share Grant Program: Request for Pre-Proposals

The National Urban and Community Forestry Advisory Council serves in an advisory capacity to the U.S. Secretary of Agriculture and seeks to establish sustainable urban and community forests by encouraging communities of all sizes to manage and protect their natural resources for this and future generations. The grant program works to support activities that are national or widespread in their impact or application. Previously funded projects are listed on-line: www.treelink.org/nucfac/. Approximately \$1 million in grant funds will be awarded. Any non-federal organization may apply for a grant; however, collaboration with federal agencies is encouraged. All grant funds must be matched at least equally with non-federal source funds. Pre-proposals must be received (not just postmarked) by December 12, 2000 and will be reviewed by February 9, 2001. For more information, contact Suzanne M. del Villar at (209) 536-9201 from 7:30 am until 5:00 pm (PST).

GRANTS WITHOUT A DEADLINE

California Community Foundation—Support for the rehabilitation, maintenance and beautification of parks and recreation areas. Contact Sr. Program Secretary at (213) 413-4130, or visit the Web site at www.calfund.org for more info.

California State Coastal Conservancy—Proposition 204 funding specifically allocated for LA River Projects that focus on habitat restoration, construction of public access facilities and others. Projects must show linkage to the coast. Call (510) 286-4169 for more info.

Clean Water State Revolving Fund—Loan program established by the Clean Water Act to local agencies for water quality improvement projects. Call the EPA Water Division at (415) 744-1948 for more info.

Economic Development Administration Grants—The US Department of Commerce Economic Development Administration will give priority consideration to projects that help communities achieve and sustain economic growth. Visit the Web site at www.doc.gov/eda for more info.

Energy Research Grants—The Office of Energy Efficiency and Renewable Energy is seeking applicants for up to \$6 million in grants to research renewable energy programs. Call the US Department of Energy at (800) 683-0751 for more info.

Jobs Through Recycling—Recycling business development program that seeks to foster recycling/reuse businesses that increase the use of recyclable or reusable materials and contribute to economic development and jobs creation. Call Julia Wolfe with the EPA Waste Management Division at (415) 744-2131 for more info.

Safe Drinking Water State Revolving Fund—Provides loans to ensure that drinking water remains safe and affordable. Call EPA's Drinking Water Office: (415) 744-1852 for more information.

OCTOBER CALENDAR OF EVENTS

EACH MONTH:

Down-by-the-River Walks

Friends of the Los Angeles River and the Sierra Club are sponsoring monthly walks along the banks of the LA River. Join them **at 4:30pm. on the third Sunday of each month** for an informal, leisurely, hour-long walk. Location varies each month—some walks feature brief talks highlighting natural, historical, artistic, or political aspects of the River. The walk is canceled if it rains. For more info., visit the FoLAR website: www.folar.org, or call Joe Linton: (213) 381-3570.

Habitat Restoration Days

Help restore wildflowers, trees and shrubs that were once here 200 years ago at the Madrona Marsh Preserve. You are invited to help in planting, weeding and collecting and growing seeds **every second Saturday of the month**. Morning maintenance is done from 9am-noon **every Tuesday and Wednesday**. Call (310) 32-MARSH.

Hyperion Waste Water Treatment Plant Tours

Free public tours of the facility (located near El Segundo in Los Angeles) are available Tuesday, Wednesday and Thursday starting at 9 a.m. Contact Felice Kidd: (310) 648-5363 for details or to schedule a tour.

Japanese Garden Tours

Docent-led tours of the Japanese Gardens at the D.C. Tillman Water Reclamation Plant in Van Nuys are offered during the day on Monday through Thursday and again on Saturday. Reservations are required. Call (818) 756-8166.

Afternoons in the Lab

Cabrillo Marine Aquarium's education staff and volunteers are available every Wednesday from 3-5 pm to answer questions and involve students of all ages in exploring local marine life in the hands-on Discovery SEA Lab. The lab, located at 3720 Stephen White Drive in San Pedro, opens with a different theme each week and activities include: using microscopes, examining specimens, creating art, playing games, exploring coastal habitat, and much more! The science education afternoon is free. Groups should make reservations. For more info., call: (310) 548-7562.

Satwiwa Sundays

From 10am to 5pm at Rancho Sierra Vista/Satwiwa. Meet guest hosts, watch demonstrations and share the experiences of the Native American LA Community. Call (805) 370-2301.

Smart Gardening Workshops

The Los Angeles Countywide Yard Waste Program hosts Smart Gardening workshops year-round throughout the County. Topics covered include backyard and worm composting, grass recycling, and water-wise gardening. For more information, call (888) CLEAN-LA or visit www.smartgardening.com.

"Smart Gardening" and Composting workshops also are held from March through November at Griffith Park. Call the Bureau of Sanitation: (213) 473-8228 for more information.

Nature-Bird Walk (Regular Fourth Weekend monthly event)

Two walks will take place—one on Saturday, and one on Sunday—both at 10 am. The walks will meander through the Madrona Marsh Preserve, starting at the Natural History Center in Torrance. Call (310) 32MARSH.

The EAD Web site, located at www.lacity.org/EAD, contains updated information on this month's events. To ensure your event is included in our monthly newsletter, submit information to the editor by the 10th of each month prior to publication. After the 10th, events can be entered into our Web site calendar only.

The EAD reserves the right to edit all submittals and does not necessarily endorse the events listed. All events are subject to change, so call listed event contacts to verify information.

Recycling Workshops and Seminars

Many workshops and seminars are regularly provided throughout the year on source reduction, recycling and composting. They have included topics such as Buying Recycled, Organics, Certified Buy Recycled Training Seminars, and Sustainable Construction. Please call the Bureau of Sanitation: (213) 473-8228 for information on upcoming events.

Tyke Hike

This hike is scheduled every first Thursday of the month in the Madrona Marsh Preserve and involves looking for animal tracks, listening for singing birds, looking for ducks and their babies, observing habitat changes and wildflowers blooming. A \$5 donation per family is requested for the Natural History Center Education Programs; reservations are appreciated. For more info., call the Friends of Madrona Marsh: (310) 32MARSH.

THIS MONTH:

November 2

Dia de los Muertos

All day colorful, ancient Mexican ceremony in remembrance of departed loved ones, beautifully decorated altars, entertainment and a procession. El Pueblo de Los Angeles Historical Monument, Home of World Famous Olvera Street. For more info call (213) 625-5045.

CNI Nature Walk

The Children's Family Nature Institute (CNI) will conduct a family nature walk in Woodland Hills at Pierce Farms, 10 am. Note: Registration is required and dates and locations are subject to change. For more info., call (310) 364-3591.

November 3

CNI Nature Walk

Pasadena in Upper Arroyo Seco, 3:30 pm. See Nov. 2 listing for details.

November 4

Plant Uses-95% Fat Free & Practical Too

From 2pm-4pm, explore historical ways of using plants for food, shelter, clothing, medicine and more. Meet at Cultural Center. Sponsored by Rancho Sierra Vista/Satwiwa: RSVP 805-370-2301.

November 7

CNI Nature Walk

Altadena in Eaton Canyon, 10 am. See Nov. 2 listing for details.

November 8

Family Bike Trip

North East Trees, Friends of the Los Angeles River, and the LA County Bike Coalition will sponsor a bike trip along the LA River—beginning at the LA River Center, 570 West Avenue 26 at 10 am. For more information call: (323) 441-8634.

CNI Nature Walk

Redondo Beach Wildemess Park at 9:30 am, Griffith Park in the Bird Sanctuary and Woodland Hills at Pierce College, 10 am. See Nov. 2 listing for details.

November 11 Veteran's Day!

Surface Water Quality and the Watershed: Citizen monitoring—how it can make a difference.

Find out how citizens are making a difference in other watersheds. Pre-registration required. Sponsored by Friends of the San Gabriel River and Friends of the Los Angeles River. For more info call (562) 908-6449.

Full Moon Hike

From 6:30-8:30 pm, explore the canyon by moonlight on this moderately strenuous hike. Sponsored by William O. Douglas Outdoor Classroom, for more info call 310-858-3090.

"Veteran's Day" 3-Wall Small Ball

Singles Venice Beach R.C. - 1800 Ocean Front Walk, Venice Handball Tournament, for more info contact: Cyndi Dumo/Stephen Joyce at: (310) 399-2775

November 12

CNI Nature Walk

Altadena at Cobb Estate, 10 am and Pacific Palisades at Temescal Canyon, 10:30 am. See Nov. 2 listing for details.

November 17

Compost Bin Sale

9am-1pm, bins may also be purchased. Subsidized by the City of Los Angeles. Proof of City of Los Angeles residency is required (DWP bill or driver's license). Sale takes place at Griffith Park For more info call (213) 473-8228.

November 18

Weekend Field Trip

The Whittier Area Audubon Society will lead a birding field trip in the Playa del Rey area. For more information, contact Jean Beaton at (562) 869-6545.

A Class for Home Gardeners

The Theodore Payne Foundation will offer a class from 10 am until 12 noon entitled, "Gardening with the Jepson Manual: A Class for Home Gardeners." Participants may purchase the manual at a 10% discount. The cost of the class is \$15 member and \$30 for nonmembers. To register, call (818) 768-1802.

CNI Nature Walk

Griffith Park Bird Sanctuary and Pacific Palisades in Temescal Canyon, 10 am and Valenica in the Placerita Nature Center at 12 pm. See Nov. 2 listing for details.

November 23 Thanksgiving Holiday

November 25

Free Smart Gardening Class

9am-1pm, save time, money, and the planet right in your own backyard. Learn Composting, Grasscycling, Worm Composting, and Waterwise Gardening. Attend a free class at the Griffith Park Compost Education Center. Sponsored by the Bureau of Sanitation, call (213) 473-8228.

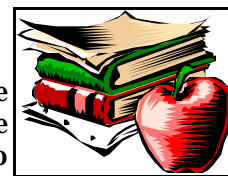

November 26

Light Festival

Every holiday season the Crystal Springs roads in Griffith Park sparkle at night during the Dept. of Water and Power and Griffith Park Light Festival. This popular free attraction—enjoyed by 330,000 last year—features a mile of spectacular displays which can be enjoyed from your car or during a walk. You may enjoy a drive through a tunnel of lights, lighted representations of

TEACHER'S CORNER

Linking education with our largest environment: space! A look at space camp:

Dr. Wernher von Braun, the architect of America's space program and director of the National Aeronautics and Space Administration (NASA) Marshall Space Flight Center in Huntsville during the Mercury, Gemini and Apollo programs came up with the idea of Space Camp. He had the idea to expose young people to science and math, using the space program as the focal point of a course of study. The first camp was established at the U.S. Space & Rocket Center in Huntsville, Alabama in 1982 when 747 adventurous youngsters signed up to learn more about space exploration. Since then, the program has expanded to include adults and specific programs for teachers. By 1999, SPACECAMP had graduated over 300,000 "trainees".

Space Camps are hosted in Alabama, California, and Florida. The California camp is for kids only and is located at Moffett Field in Mountain View—the heart of Silicon Valley. Mountain View is in the San Jose area, about 45 minutes from San Francisco. Space Camp California opened its doors in July 1996 at NASA's Ames Research Center. Camps for adults take place at the U.S. Space & Rocket Center in Huntsville, Alabama only. Teacher programs are hosted in both Alabama and Florida. For more information, see the website: www.spacecamp.com or call 1-800-533-7281. Teachers may ask to be connected with the

Education Resource Center (ext. 625) or to speak with the Director of Education, Julie Ferriss. Below are descriptions of programs for teachers.

SPACE CAMP One-Day Workshop, Huntsville, AL, \$55 per person

Check out the one-day SPACE CAMP workshop offering exciting and relevant cross-curriculum ideas along with implementation plans for class and school-wide projects for Aerospace Week.

SPACE CAMP Weekend, Huntsville, AL, \$350 per person

Immerse yourself in space science and exploration in this three-day, two night camp adventure. You'll delve into the history of space travel and discover what lies ahead in the future of space exploration. Take your place on the team for a simulated shuttle mission, and then take home ideas and activities for the classroom from our space science and exploration workshops. You'll also hear from scientists at Marshall Space Flight Center and visit the NASA Educator Resource Center on-site at the U.S. Space & Rocket Center.

SPACE ACADEMY for Educators* 5-Day Program, Huntsville, AL or Titusville, FL, \$799 per person

* Open to certified teachers only. SPACE ACADEMY for Educators is designed to assist professional educators in motivating young people toward greater achievement in science and math by providing them with exciting space science and astronaut-style training resources and applications. Use the excitement of the space program to recharge your batteries and provide your students with a launching pad for new ideas.

GLOBE TRAINING/SPACE CAMP for Educators 6-Day Program, Huntsville, AL, \$650 per person

The GLOBE program links students, teachers and the scientific research community in an effort to learn more about our environment through student data collection and observation. During this week at SPACE CAMP, you'll explore the history and future of the space program, participate in simulated shuttle missions, and discover the significant role that space exploration plays in earth and environmental science. Upon your return to the classroom, you'll be equipped to implement your collaborative, inquiry-based GLOBE learning experience into the curriculum.
